SUMMARY

Senior Angular Frontend Developer with **5+ years** of professional experience (since June 2021) building and maintaining large-scale, production web applications. Specialized in modern Angular architecture — **Standalone Components, Signals, SSR / Angular Universal, RxJS** and **TypeScript** — applied through **Domain-Driven Design** with facade, repository and store layers and reactive Signals-based state management.

Delivered bilingual **Arabic/English (RTL/LTR)** healthcare and telehealth platforms, enterprise dashboards, ERP modules and corporate websites, including **real-time chat and notifications** (Socket.io, Pusher), **live voice and video sessions via the Agora RTC SDK**, and frontend integration of **AI chat experiences** across text and voice.

Experienced with modern Angular development from **Angular 16 through Angular 21**, with ongoing adoption of the latest releases, and a strong focus on reusable component systems, **SSR-correct SEO**, **Core Web Vitals** and **WCAG accessibility**.

CORE TECHNICAL SKILLS

Languages & Markup TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/SASS, jQuery (legacy)

Angular Ecosystem Angular 16 / 19 / 20 / 21 and latest releases, Standalone Components, Signals, RxJS, Angular SSR / Angular Universal, typed route constants, Reactive Forms, Guards & Interceptors, Angular CDK, Angular Material, PrimeNG / Primelcons, ngx-translate, NgRx

Architecture & Patterns Domain-Driven Design (DDD), Facade Pattern, Repository Pattern, Store Pattern, reactive Signals state management, modular & feature-based architecture, reusable component libraries, design systems, BEM, SOLID principles

Real-time & Integrations Agora RTC SDK (live voice & video sessions), Socket.io, Pusher, Firebase / AngularFire, REST API integration, AI chat integration (text & voice, frontend), Google Maps

UI, Styling & Localization Responsive Web Design, Tailwind CSS, Bootstrap 5, custom design systems, RTL/LTR support, i18n / custom translation systems, Arabic-English bilingual interfaces

Quality & Performance Karma & Jasmine unit testing, Core Web Vitals (LCP, CLS, INP, FCP, TTFB), technical SEO, semantic HTML, JSON-LD structured data, sitemap generation, WCAG accessibility, Lighthouse

Tooling & Delivery Git, GitHub, Azure DevOps, Node.js / Express SSR server, Vercel, Netlify, Agile / Scrum, code review, QA coordination

EXPERIENCE

Talbinah — تلبينة

May 2025 – Present

Angular Frontend Developer · Remote · Saudi Arabia · Company profile: <https://talbinah.net/>

- Deliver and maintain the **Angular 19 SSR** frontend of a bilingual Arabic/English **telehealth** and mental-wellness platform covering therapist booking, live sessions, assessments, subscriptions, community features and an internal operations dashboard.
- Engineered a **Signals-first, Domain-Driven frontend architecture** with facade, repository and store layers, isolating UI from data access and keeping feature domains independently testable and maintainable.
- Integrated the **Agora RTC SDK** to deliver **live voice and video therapy sessions**, implementing device permissions, session lifecycle handling, connection-state recovery and in-session UI states.
- Implemented the frontend for **AI-assisted chat and AI companion experiences** supporting both text-based and voice-based conversations over real-time streams, alongside real-time chat and notifications built on **Socket.io** and **Pusher**.
- Built an **SSR-correct SEO and metadata layer** (titles, canonicals, hreflang, Open Graph, **JSON-LD**) with sitemap generation, and optimized **Core Web Vitals** across the public platform.
- Own **RTL/LTR theming, i18n and WCAG accessibility** across the shared design system, and coordinate QA readiness and weekly delivery reporting against **Azure DevOps** work items.

AppzLabz

April 2023 – April 2025

Angular Frontend Developer · Remote

- Developed and maintained multiple **Angular SSR** applications, dashboards and corporate platforms for Saudi and regional clients across healthcare booking, payments, education finance, government/CMS and traditional-arts sectors.
- Built **reusable, themeable component libraries** on PrimeNG, Angular Material and Angular CDK, cutting duplicated UI work and standardizing form, table and modal patterns across projects.
- Implemented reactive data flows with **RxJS** and **NgRx** for data-heavy dashboards, including role-based access, route guards, HTTP interceptors and authentication flows.
- Delivered **SSR and technical SEO** improvements — server-side rendering, semantic markup, metadata and asset optimization — for public-facing product and marketing sites, and implemented full **RTL/LTR and Arabic/English localization**.

- Integrated REST APIs, payment flows, Google Maps and file/media handling; wrote unit tests with **Jasmine** and **Karma** in Agile teams.

Hashstudio Inc.

June 2021 – March 2023

Angular Frontend Developer · Shebin El-Kom, Menoufia, Egypt · Company profile: <https://hashstudio.dev/>

- Built Angular applications from design handoff through production release, including **ERP modules** (accounting, sales, customers, employees, Zakat/Tax compliance) and a large-scale **digital library platform**.
- Implemented complex data-entry, tabular and editor-driven interfaces using **Angular Material**, **PrimeNG**, **NgRx**, Froala Editor and Pusher-based updates.
- Developed responsive, cross-browser interfaces with **SCSS** and **Bootstrap 5**, translating pixel-level designs into maintainable component structures, and contributed to corporate site delivery with Angular SSR and SEO fundamentals.

PROJECTS

Reference Portal — Talbinah

April 2025 – Present

Talbinah's bilingual Arabic/English **telehealth and mental-wellness platform**, combining a redesigned patient experience with **AI-assisted interaction**, therapist booking, **live voice/video sessions**, community features, assessments, subscriptions and an internal operations dashboard. Built on an RTL/LTR-aware, **Signals-first, Domain-Driven architecture** focused on performance, accessibility and scalability.

STACK Angular 19, TypeScript, Standalone Components, Signals, SSR / Angular Universal, RxJS, SCSS, Tailwind CSS, custom design system, PrimeNG, Angular CDK, ngx-translate, i18n, RTL/LTR, Firebase / AngularFire, Agora RTC SDK (live video & voice), Socket.io, Pusher, real-time chat & notifications, Express SSR server, Karma/Jasmine, DDD, facade / repository / store patterns, reactive Signals state management.

LINK <https://app.talbinah.net/>

AGRO TEBA

10–15 June 2026 · 6 days

Corporate platform for a manufacturer of high-quality fertilizers and innovative agricultural solutions, showcasing products that support healthier crops, higher yields and sustainability in modern agriculture. Delivered on **Angular 21** with a **Signals-first, domain-driven structure** and a custom bilingual translation layer rendered server-side.

STACK Angular 21, TypeScript, Standalone Components, Signals, SSR / Angular Universal, RxJS, SCSS, Tailwind CSS, custom design system, reusable components, custom i18n translation system, RTL/LTR, Express SSR server, Karma/Jasmine, DDD, facade / repository / store patterns, reactive Signals state management.

LINK <https://dev.agrotebaint.com/>

Talbinah Website

February 2023 – Present

Public-facing website for Saudi Arabia's Talbinah mental-health service — psychological and family consultations with certified specialists, immediate booking and full confidentiality. **Angular SSR** delivery with an **Arabic-first RTL experience**, technical SEO and continuous performance work.

STACK HTML5, SCSS, Bootstrap 5, TypeScript, Angular, RxJS, PrimeNG, advanced Angular libraries, SSR, SEO, RTL/LTR.

LINK <https://talbinah.net/>

Procurelinker

November 2024 – February 2025

Corporate platform for a software-house agency offering integrated digital services across business identity design, web solutions, programming, web hosting and server services. **Angular 16 SSR** application with Google Maps integration and a reusable component layer built on Angular Material and PrimeNG.

STACK Angular 16, TypeScript, SASS, Bootstrap 5, Angular Material, PrimeNG, RxJS, Google Maps integration, responsive web design, custom UI components, design patterns, modular architecture.

LINK <https://p-linker-ssr-16.vercel.app/>

Knowledge Bank (Tweeq)

April 2022 – April 2024

Large-scale **digital library** for a national education development programme, providing research and knowledge resources at no cost, with role-based access and a rich content-authoring workflow.

STACK Angular, TypeScript, SASS, Bootstrap, Angular Material, PrimeNG, NgRx, RxJS, guards, Froala Editor, Pusher.

LINK <https://tweeq.ikb.sa/#/> Infrastructure note: server changed.

Medjol Patient (Availy)

May 2023 – Present

Patient-facing **healthcare booking platform** with map-driven provider discovery, appointment scheduling and service browsing.

STACK Angular, TypeScript, SASS, Bootstrap 5, Angular Material, PrimeNG, RxJS, Google Maps, design patterns.

LINK <https://availy.online/> Infrastructure note: server changed.

Medjol Provider Dashboard

May 2023 – Present

Provider-side **operations dashboard** for schedule, service and booking management, built on the same shared component layer as the patient app.

STACK Angular, TypeScript, SASS, Bootstrap 5, Angular Material, PrimeNG, RxJS, Google Maps, design patterns.

LINK <https://provider.availy.online/> Infrastructure note: server changed.

QR Payment

September 2023 – Present

Quick-reservation **payment flow** for the Saudi market, driven by QR-based booking links that open a pre-filled reservation and checkout journey.

STACK Angular, TypeScript, SCSS, Bootstrap 5, PrimeNG, RxJS.
LINK <https://availy.shop/bookings/jeU7R0N5WkekI9SZi6mhgw> Infrastructure note: server changed.

Civil Services Management Dashboard

January 2023 – Present

Centralized platform to streamline and monitor civil-service operations, with **data visualization** supporting management and public-service decision-making.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS, PrimeNG.
LINK <http://cms-demo.awaneg.com/> Infrastructure note: server changed.

Jusur Dashboard

August 2023

Multi-role **administrative dashboard** with separate admin and client experiences over a shared component and routing layer.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS, PrimeNG.
LINK <https://jusur-dashboard.vercel.app/en/Auth/Login> Infrastructure note: database changed.

WRTH — Royal Institute of Traditional Arts

October 2024 – Present

Cultural platform representing the artistic heritage of Saudi Arabia — its traditional artworks, the artists behind them, and programmes encouraging new practitioners.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS, advanced Angular libraries, RTL/LTR.
LINK <https://wrth.edu.sa/>

AMS Policies

September 2022 – September 2023

Policy reservation platform with full **CRUD** operations, multiple payment methods, and location, device and browser signals used as part of authentication.

STACK Angular, TypeScript, SASS, Bootstrap 5, Angular Material, PrimeNG, RxJS.
LINK <https://ams-policies.vercel.app/#/home>

Hawdaj

February 2023 – Present

Tourism platform showcasing Saudi Arabia's natural heritage destinations, with **Firestore authentication**, map-based discovery and server-rendered pages for search visibility.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS, PrimeNG, Google Maps, Firebase authentication, SSR, SEO.
LINK <https://hawdaj.net/>

Mention

January 2023 – April 2024

Conversation and engagement platform combining an authenticated admin dashboard with a **real-time conversations workspace**, structured around SOLID principles.

STACK Angular, TypeScript, SCSS, Tailwind CSS, RxJS, PrimeNG, SOLID principles, SSR, SEO.
LINK <https://mention-17-ssr.vercel.app/Auth/Login> | <https://mention-17-ssr.vercel.app/Admin/Dashboard> | <https://mention-17-ssr.vercel.app/Main/Conversations>

Estkdam

January 2024 – February 2024

Recruitment platform that streamlines domestic-worker hiring while safeguarding the rights of employers and workers.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS, PrimeNG, SSR, SEO.
LINK <https://estkdam.vercel.app/>

Gdawel ERP

June 2022 – March 2023

ERP suite for small and medium businesses covering accounting, sales, customers, employees and Zakat/Tax authority compliance under a single management interface.

STACK Angular, TypeScript, SASS, Bootstrap 5, Angular Material, PrimeNG, RxJS.
LINK <https://gdawel.app/>

Seaah Stakeholders

October 2023 – Present

Education-finance platform providing interest-free installment plans for school and university expenses.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS, PrimeNG, SSR, SEO.
LINK <https://seaah-stackholders.vercel.app/>

HashStudio — Digital Destination

November 2022 – December 2022

Corporate website for a software company, delivered as a hash-routed Angular single-page application.

STACK Angular, TypeScript, SCSS, Bootstrap 5, RxJS.
LINK <https://hashstudio.dev/#/>

Swarm Technologies

15–20 April 2025 · 6 days

Corporate website for a Saudi technology company specializing in artificial intelligence, advanced software, digital transformation, cybersecurity and cloud hosting, presenting its services, vision and partnerships in line with **Vision 2030**.

STACK HTML5, CSS3, JavaScript, responsive web design, semantic HTML, SEO, accessibility, RTL/LTR support, image optimization, modular JavaScript architecture.
LINK <https://swarm-technologies-delta.vercel.app/>

Social Studio

16–17 July 2026

Content-creation tool for social media teams: upload one or multiple images and videos, apply company branding, resize to custom or per-platform formats, then download or share the final assets.

STACK HTML5, CSS3, vanilla JavaScript (ES6+), responsive web design, semantic HTML, SEO, WCAG accessibility, Core Web Vitals, lazy loading, browser-native APIs, modular JavaScript architecture.

LINK <https://social-studio-ivory.vercel.app/>

QIAS Dashboard

21 Feb – 1 March 2024 · 9 days

Prediction-focused web application providing an interactive interface for submitting data and generating prediction results, presenting model-driven insights through a structured **dashboard** experience.

STACK Interactive dashboard UI, data visualization, prediction interface, responsive web design, semantic HTML, accessibility, API integration, modular JavaScript architecture, Vercel.

LINK <https://qias-dasnboard.vercel.app/>

Eid Adha Card

5 June 2026 · 1 day

Lightweight interactive tool for creating personalized Eid al-Adha greeting cards, offering **simulated AI suggestions** for greeting messages and card content, with fast customization and sharing.

STACK HTML5, CSS3, vanilla JavaScript, responsive web design, semantic HTML, SEO, WCAG accessibility, Core Web Vitals, browser-native APIs, simulated AI suggestions.

LINK <https://eid-adh-card.vercel.app/> | <https://general-eid-maker.vercel.app/> | <https://talbinah-eid-al-fitr-greetings.vercel.app/>

Wakeb Tech Site

January 2023 – Present

Product website presenting computer-vision data capture and visualization technologies.

STACK HTML5, CSS3, JavaScript, responsive web design, semantic HTML, SEO, performance optimization.

LINK <https://wakeb-tech-site.vercel.app/>

Wakeb AI Chat

February 2024

Conversational **AI chat interface** covering chat UI, message states and response presentation.

STACK HTML5, CSS3, JavaScript, responsive web design, custom UI components, client-side interactions.

LINK <https://wakeb-ai.vercel.app/>

Nile Ortho

April 2023 – Present

Medical practice website with responsive layouts and semantic markup.

STACK HTML5, CSS3, JavaScript, responsive web design, semantic HTML, SEO.

LINK <https://www.nileortho.com/>

NEN Site

April 2024 – Present

Corporate identity and content website with multilingual routing.

STACK HTML5, CSS3, JavaScript, responsive web design, semantic HTML, multilingual routing.

LINK <https://dev.nendemo2024.xyz/en/about/identity>

Sarie Site

March 2024

Marketing website focused on fast delivery and a clean responsive layout.

STACK HTML5, CSS3, JavaScript, responsive web design, custom UI components.

LINK <https://sarie-site.vercel.app/>

Qaraah Site

May 2024

Content-oriented website with an accessible reading experience.

STACK HTML5, CSS3, JavaScript, responsive web design, semantic HTML, accessibility.

LINK <https://qaraah-site.vercel.app/>

Taba Educational Program

March 2022 – June 2022

Educational programme website presenting programme structure and enrolment information.

STACK HTML5, CSS3, JavaScript, responsive web design, semantic HTML.

LINK <https://taba-educational-program.vercel.app/>

Download Images

August 2024

Utility web tool for batch image retrieval and download, built with browser-native APIs.

STACK HTML5, CSS3, JavaScript, browser-native APIs, responsive web design.

LINK <https://download-images-woad.vercel.app/>

EDUCATION, CERTIFICATIONS & LANGUAGES

B.Sc. in Computer Science Faculty of Computers & Information, Menoufia University

August 2015 – July 2019

Professional Diploma — MEARN Stack Web Development ITI, MCIT

April 2021 – July 2021 · 3 months

Languages Arabic — native / bilingual proficiency. English — professional working proficiency.
